

Dear Chairman Powell,

I hope you will decide against further relaxing the rules of media ownership and conglomeration. I fail to see how the proposed relaxation will serve the public interest or result in a more informed citizenry.

I'm also troubled by the FCC's seeming reluctance to engage the public more broadly in the decision-making process behind this significant issue-- surely its significance warrants more public debate, and more weight given to the concerns of those who own the airwaves-- the American people.

Thanks for your consideration,

David Rees
